

Word Generator

User Manual

When you open Word Generator, the main window appears.

Generation of words

If you want a list of words in one of the basic languages provided, just:

1. •select this language,
2. •indicate the desired word length,
3. •indicate the number of words you want,
4. •click on the "Generate" button.

Using the word list

If you want to keep the list of created words you can either:

1. •copy it in the clipboard,
2. •print it,
3. •save it

by using the menus or buttons on the toolbar.

Providing your own words database

To use your own list of reference words:

1. •create a UTF8 text file consisting of one line per word,
2. •select the "File / New Database" menu, or the button on the toolbar,
3. •in the new window select the corresponding file,
4. •click on the "Ok" button.

Word Generator has studied this file and now knows the particularities.
